

Infinity Air

Feel the Difference

INFINITY AIR

Feel the Difference

At Infinity Air, we believe in providing transparent and reliable Air-con services to all our clients. We focus on understanding our customers' situations before proposing the best fit solutions.

We have grown from humble beginnings. Starting off with taking only residential Air-con projects, we now serve residential, industrial and commercial clients, offering a range of services such as preventive maintenance, repair, troubleshooting and also providing consultation services for clients from different walks of life. With our wealth of knowledge accumulated over the years in the Air-con industry, we are proud to be able to provide quality and reliable services to all our clients.

MISSION

To provide trustworthy and reliable one-stop air-con solutions to all our clients.

VISION

To be the leading air-con solutions provider.

VALUES

Transparency, accountability and reliability.

WHY CHOOSE US?

Holistic Services

We pride ourselves in being a holistic heating, ventilation and air-conditioning (HVAC) provider. We offer services that span across all aspects of HVAC - Servicing, installation, repair and more.

Short Response Time

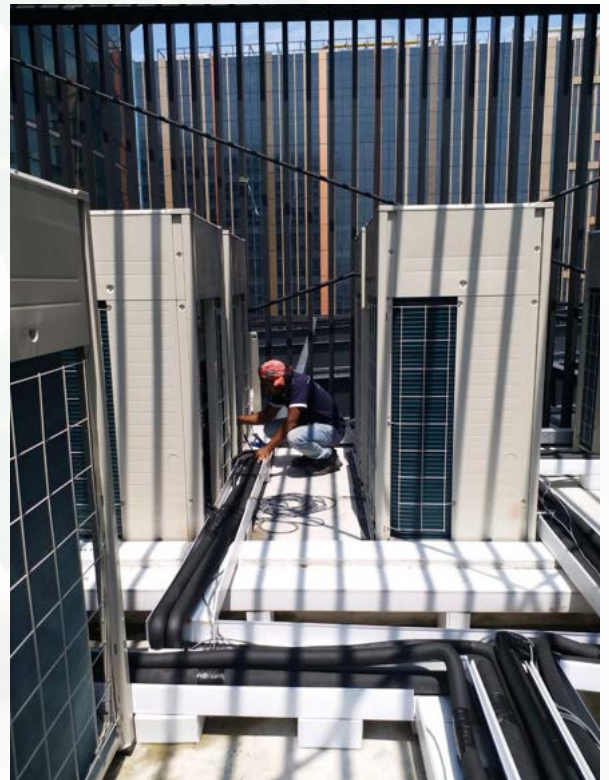

We can be contacted via phone, Whatsapp and email. Proper and efficient communication are important to us and we will always strive to get back to you as soon as we can.

Residential, Commercial and Industrial

Regardless if you need help with a small installation in your home or you're part of a big company looking for help with a large scale project, our team has the experience to assist you. If it is out of our scope, we will do our best to get you in touch with someone who can help.

Experienced Technicians

Most of our technicians have been on the team for years now and some have been with us since the incorporation of the company. They are constantly upgrading and are well equipped to handle different situations that may arise during operations.

Customised Solutions

One of the perks of being an SME is our ability to add that personal touch. We appreciate every client and want to formulate solutions that fit their needs. No two clients are the same and so no two solutions should be as well!

Transparent & Reasonable Costs

We are here for the long-run and hold fast to always being transparent and reasonable with our costs. Each quote comes with a detailed breakdown so you know exactly what you are paying for.

Back-end Support & Administration

For our commercial clients, we understand that a lot might be happening on the front-end so rest assured that we will provide you with the necessary paperwork required to keep your back-end operations smooth. And if you ever need further clarification, our competent administrative team is only a phone call or email away.

Accredited Certifications

Certifications may not seem like much but what they promise is that our company will uphold the highest of health and safety standards when running our operations, as well as to stay up to date with all new regulations within the industry.
