PAGE 5

BUILT-IN SMART CONTROL

Built-in with smarter, more convenient, more energy saving functions & controls to cool your home in style

PAGE 8

SUPERB AIR QUALITY PM 2.5 FILTER

Quality of indoor air can be improved significantly and helps to keep home cleaner and healthier, improving the quality of sleep.

PAGE 9

UPGRADABLE TO D'Smarthome (OPTIONAL)

With a smart home system, the electronic devices and appliances can be connected to communicate with each other.

PAGE 10

STRONGEST* COOLING & QUIETEST at 19 dB(A)

With the strong cooling capacity*, Daikin iSMILE series requires only a single outdoor unit to maintain comfort up to 5 rooms. Enjoy a full quiet relaxation with a sound level of only 19db(A)

PAGE 11

SUPERIOR 5 TICKS COOLS UP TO 5 ROOMS

Recognized as the highest energy efficiency rating of 5 Ticks, Daikin iSMILE series offers the most energy savings for your comfort & wallet

Built in WIRELESS LAN ADAPTOR

The Wireless LAN Connecting Adaptor (*BRP072C42) is installed inside the indoor unit.

Built-In

DAIKIN SMARTPHONE CONTROL

Control your air conditioner from everywhere via smartphone

Weekly schedule*

The weekly timer allows up to 6 actions to be programmed for each day of the week. **You can schedule not only the ON/OFF operation but also set the temperatures.** Once the weekly timer is set up, the air conditioner operates each day without remote controller input.

- Start/stop operation
- Show outdoor temperature
- Show/set room temperature
- Child lock
- Error notification

- Set airflow direction
- Set fan speed
- Password setting
- Set operation mode:
Auto/Cool/Heat/Fan/Dry

No more worries about forgetting to turn off the air conditioner

Compatible with a wide variety of indoor units

HOW TO ACTIVATE DAIKIN iSMILE WiFi FUNCTION?

Visit <http://www.daikin.com.sg/wifi-setup> on how to activate Daikin iSmile WiFi function.

MORE CONVENIENCES WITH DAIKIN MOBILE CONTROLLER

NO MORE WORRIES!
WHEREVER, WHENEVER...
YOUR AIR CONDITIONERS
CAN BE CONTROLLED!

No matter how busy,
everything is in control!

"Vacation mode" is used to deactivate all air conditioners.

Cool rooms are ready!

HOW DOES DAIKIN MOBILE CONTROLLER WORK?

- 1** Adjust the air conditioner using the Daikin Mobile Controller application

- 2** The Wifi Router receives data from your phone and sends it to the receiver.

- 3** The receiver receives data and controls home comfort from wherever you are.

COMMUNICATING WITH YOUR HOME

Smart home technology promises to provide your living with an enhanced lifestyle of comfort, convenience, home ecosystems and security. With a smart home system, a variety of electronic devices and appliances can be connected to communicate with each other as well as with you.

Whether you're at work or on vacation, you can seamlessly control your air-conditioners, air purifier, lightings and even security systems from your smartphone.

MAKING YOUR HOME SMARTER

LIFESTYLE

SUPERB AIR QUALITY PM 2.5 FILTER

WHAT IS PM 2.5?

PM stand for Particulate Matter

that smaller than 2.5 micron. (mixture of solid particles and liquid) droplets found in the air)

HEALTH EFFECTS OF PM 2.5 PARTICLES

- Small enough to be breathed deep into the lungs.
- Children, people over 65, pregnant women are highly sensitive.

IN PURSUIT OF BETTER AIR THROUGH TECHNOLOGIES OF AIR CONDITIONING AND FILTER

With the prevalence of air contaminants such as PM2.5, bacteria, viruses, and allergens, air environments are having significant impacts on people's health, and society looks to technology to improve indoor and outdoor air environments. People spend more than 90% of their time indoor, the risks to health increased due to exposure to air pollution indoors.

We believe that it will become increasingly important to develop technologies that improve indoor air environments by removing pollutants, preventing their emission, blocking out polluted air.

With the newly added Dust collection PM2.5 Filter in this ismile series, quality of indoor air can be improved significantly and helps to keep home cleaner and healthier, improving the quality of sleep.

Notes:

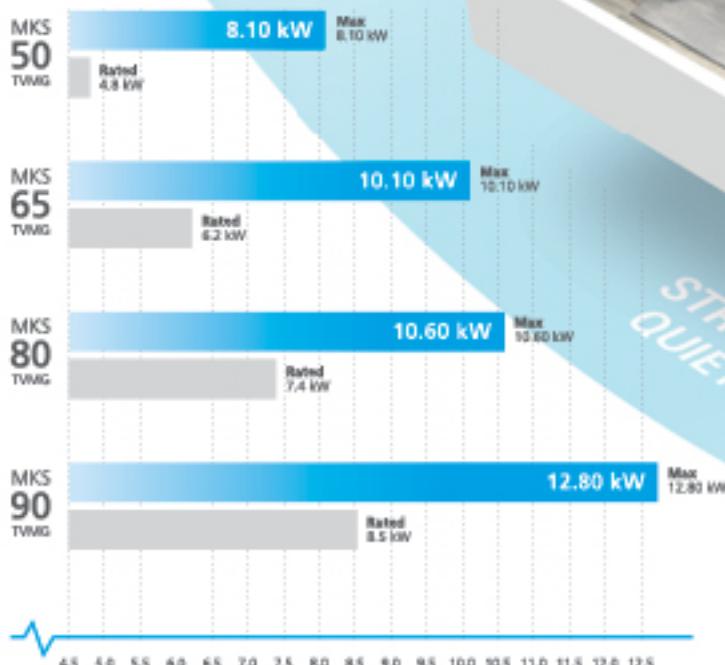

- This filter collects particles as small as 2.5 microns passing through the filter.
- The effectiveness of this filter depends on room conditions and the usage of air conditioner.
- This filter is not a medical device and doesn't have certification.
- This filter cannot be cleaned and recommended to be replaced every 6 months.

STRONGEST COOLING & MORE SAVING

EVEN IN STANDBY POWER MODE WITH 5 TICKS IN FULL LINE UP

STRONGEST COOLING CAPACITY

Daikin iSmile series can pull out very high capacity.

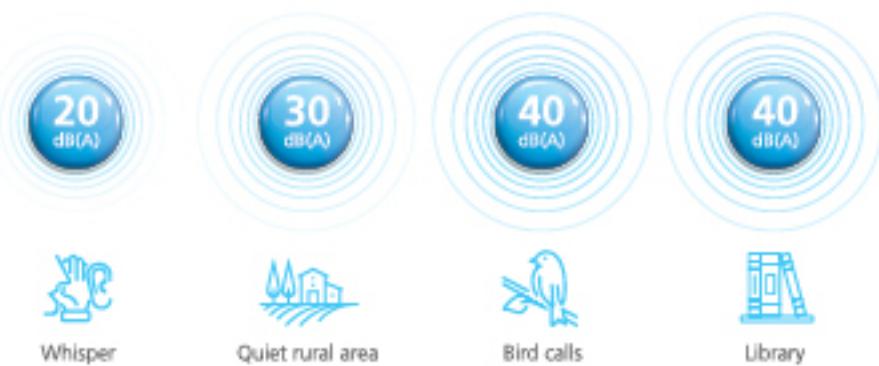

STRONGEST COOLING &
QUIETEST AT 19 dB(A)

QUIETEST AT 19 dB(A)

iSmile series of CTKS25TVMG offer whisper-quiet performance down to 19dB(A)* to further to your sense of comfort.

*Applicable for selected models only.

5 ticks with MORE Benefits

Daikin iSmile series are energy efficient which acquired 5 Ticks in full line up. Furthermore they have the strongest cooling capacity that can quickly cool every corner of the room. It ensures that you can enjoy energy saving and optimal comfort.

iSmile for **SUPERIOR PERFORMANCE**

The inverter changes the frequency of electric power, enabling capacity adjustment. **The 8.0kW class can provide superior performance up to 10.60kW.**

EXCELLENT COMFORT WITH INVERTER TECHNOLOGY

More **Savings & Comfort** with technology that manages energy efficiency.

How it works?

INVERTER COMPRESSOR
Stable cooling temperature & energy saving

Our inverter system powers up to reach the desired temperature quickly. When approaching the desired temperature, the system maintains at a constant temperature without wasting energy, offering significant energy savings.

NON-INVERTER COMPRESSOR
Unstable cooling temperature & Energy Wastage from restarting compressor

The non-inverter system continually starts and stops to maintain at the preset temperature. The repeated start-and-stop operation requires excess energy to restart the motor, resulting in energy wastage.

MUCH LOWER ANNUAL ELECTRICAL BILLS

MORE SAVINGS EVEN IN STANDBY POWER MODE

Even when an air conditioner is not operating, it requires standby power. With low standby power, Daikin SMILE series provides you with more savings.

SUPERIOR 5 TICKS COOLS UP FROM 3 TO 5 ROOMS

Super Savings

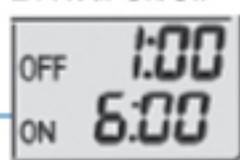

Weekly Timer

Besides ON/OFF operation, our weekly timer enables you to schedule settings for day, time and temperature. You can customize your desired temperature at different timings of each day of the week, up to 4 timer settings.*

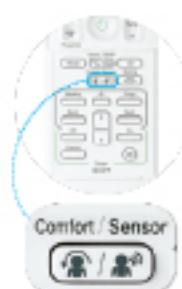

24 Hour On/Off

Off timer at 1:00 a.m. and
On timer at 6:00 a.m.

Energy saving with Intelligent Eye Sensor

Comfort / Sensor

Infrared sensors will detect movement in your room and adjust the airflow direction to ensure excellent cooling comfort.

This function is designed with 2 air-flow programs for greater comfort.

→ Sensor mode

When there is no movement for 20 minutes, the set temperature automatically adjust 2°C higher.

When someone is back to the room, the air conditioner returns to the set temperature.

NEW! Comfort mode

This mode is providing a comfortable air flow that will not come in direct contact with people.

Combination of Comfort mode & Intelligent eye

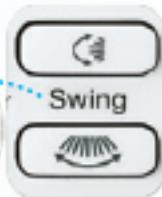

* 6 timer settings a day via "Daikin Mobile Controller".
(page 16)

Super Comfort

 **3-D airflow**

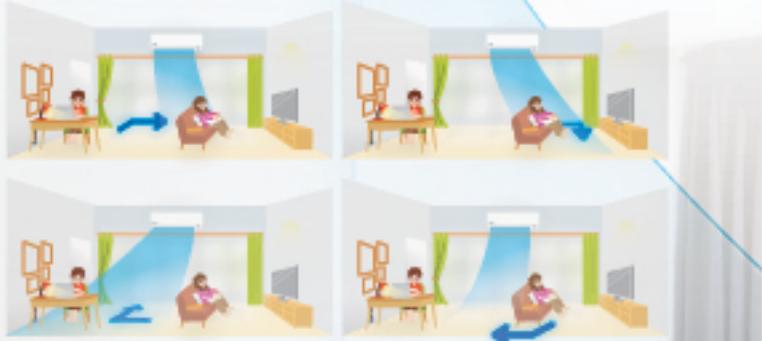

NEW!

The Daikin 3-D Airflow function combines vertical and horizontal auto-swing to distribute air evenly to the corners of the room, spreading comfort more widely throughout the room.

How 3D airflow works?

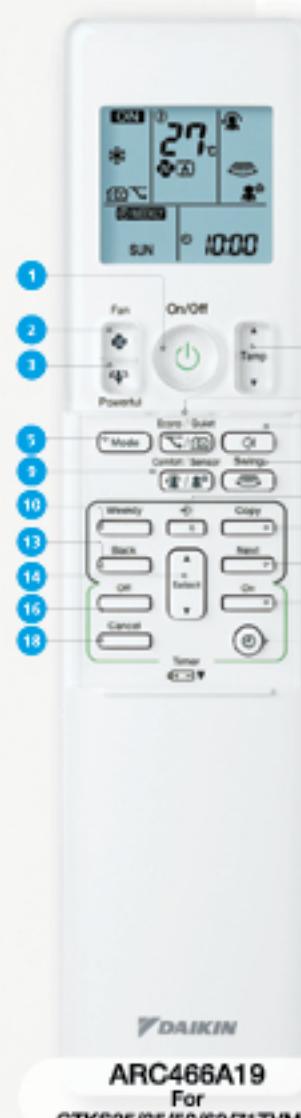

The flaps and louvers swing in turn, expanding the comfort zone

WIRELESS REMOTE CONTROLLER OVERVIEW

Beside ON/OFF operation, our weekly timer enables you to schedule setting for day, time and temperature. You can customize your desired temperature at the different time of each day of the week up to 4 timer settings.*

*6 timer settings a day if via "Daikin Mobile Controller"

COMFORTABLE AIRFLOW

POWER AIRFLOW FLAP

The Power-Airflow Flap flattens out during cooling operation to deliver cool air to the corners of a room.

POWER AIRFLOW DUAL FLAPS

The Power-Airflow Dual Flaps can flatten out during cooling operation to deliver cool air to the corners of a room.

WIDE-ANGLE LOUVERS

The Wide-Angle Louvers provide wide airflow coverage for effective operation no matter where the indoor unit is placed in a room.

VERTICAL AUTO-SWING (UP AND DOWN)

This function automatically moves the flaps up and down to distribute air across a room.

HORIZONTAL AUTO-SWING (LEFT AND RIGHT)

Horizontal Auto-Swing automatically moves the louvers to the left and right to cover a room with cool air.

3-D AIRFLOW

This function combines Vertical and Horizontal Auto-Swing to circulate a cloud of cool air right to the corners of even large spaces. The flaps and louvers swing in turn.

COMFORT AIRFLOW MODE

This function prevents uncomfortable drafts from blowing directly on to the body. To prevent drafts, the flap moves upward during cooling operation.

LIFESTYLE CONVENIENCE

INVERTER POWERFUL OPERATION

This function boosts cooling performance for 20 minute period. It is convenient when the air conditioner is first turned on or it is necessary to change the room temperature quickly.

PRIORITY ROOM SETTING

This function assigns preferential air conditioning to the indoor unit in the priority room. The unit receives priority control over Inverter Powerful Operation. Outdoor Unit Quiet Operation can be set easily from the remote controller in the priority room.

ECONO MODE

This mode limits maximum power consumption. This improves operating efficiency and also prevents circuit breakers from being overloaded.

INDOOR UNIT ON / OFF SWITCH

The unit can be conveniently started by hand if the wireless remote controller is misplaced or its batteries are not charged.

BUILT IN WIRELESS LAN CONNECTING ADAPTOR

This wireless LAN adaptor is installed in the indoor unit. It effectively turns your smartphone into a remote controller that can be used inside or outside the home. Together they help to maintain comfort while saving energy, and eliminate any worries about forgetting to turn off your air conditioner.

WIRELESS REMOTE CONTROLLER (BACKLIGHT)

The backlit LCD allows easy operation in the dark.

TIMER

WEEKLY TIMER

The Weekly Timer allows up to four actions to be programmed for each day of the week. It is possible to schedule not only the on and off times, but also the desired temperatures during these periods. The copy function also makes the setting much easier.

COUNT UP-DOWN ON / OFF TIMER

The operation start and stop times can be set with the touch of a single button and preset for a period of one to 12 hours in one hour increments. When the Off Timer is set, Night Set Mode is activated automatically.

24-HOUR ON / OFF TIMER

This timer can start or stop the air conditioner within a 24-hour period. It can be preset in 10-minute steps by pressing the On/Off timer button on the wireless remote controller. The On timer and Off timer can be used in combination.

NIGHT SET MODE

Pressing the Off timer button automatically selects Night Set Mode. This function prevents excessive cooling or heating for a pleasant sleep. After 60 minutes, the room temperature is raised by 0.5°C for cooling operation.

WORRY FREE

AUTO-RESTART (AFTER POWER FAILURE)

The air conditioner memorizes the settings for operation mode (cooling, dry and fan only), airflow, temperature, etc., and automatically returns to them when power is restored after a power failure.

SELF-DIAGNOSIS WITH DIGITAL DISPLAY

Malfunction codes are shown on the digital display panel of the wireless remote controller for fast and easy maintenance.

COMFORT CONTROL

AUTO FAN SPEED

The microprocessor automatically adjusts the fan speed to high to rapidly reach the set temperature. Once the temperature is achieved, this function reduces the fan speed to low.

INDOOR UNIT QUIET OPERATION

Indoor unit operating sound pressure levels are decreased from the Low setting fan speed using the wireless remote controller.

OUTDOOR UNIT QUIET OPERATION

Outdoor unit operating sound pressure levels are decreased from the rated operation sound using the wireless remote controller.

INTELLIGENT EYE

Intelligent Eye with its infrared sensor automatically controls air conditioner operation according to human movement in a room. When there is no movement for 20 minutes, it adjusts the temperature by 2°C for energy savings.

PROGRAMME DRY FUNCTION

The computer chip works to rid the room of humidity while maintaining the most comfortable temperature possible. It automatically controls the temperature and airflow rate.

CLEANLINESS

MOLD PROOF AIR FILTER

The air filter is impregnated with a mould preventive. The substance stops any growth increase in number or activity by mould on the filter surface.

DUST COLLECTION FILTER (PM 2.5)

The filter collects particle as small as 2.5 microns.

WIPE CLEAN FLAT PANEL

The flat panel design can be cleaned with only the single pass of a cloth across its smooth surface. The flat panel can also be easily removed for more thorough cleaning.

REMOVABLE DRAIN PAN

The drain pan collects condensation from the indoor heat exchanger fins. Removable drain pans help to reduce the cleaning time and ensure a perfect finish.

TITANIUM APATITE DEODORIZING FILTER (OPTION)

This filter contains titanium apatite. While the filter's micro-level fibres trap dust, the titanium apatite adsorbs odours and allergens, as well as deodorises odours. The filter can be used for up to three years with proper maintenance.

Note

1. Cooling capacity is based on 27°C DB 19°C WB (indoor temperature), 35°C DB (outdoor temperature).
2. The total ability of connected an indoor unit is up to 9.5kW.
3. It is possible to connect the indoor unit for one room only.

OPTION

OUTDOOR UNIT

OPTION NAME	MKS50/65/80TVMG	MKS90TVMG
Air direction adjustment grille		KPW5E112
Drain plug	KKP937A4	KKP945A4

INDOOR UNIT

OPTION NAME	CTKS25/35/50TVMG	CTKS60/71TVMG
Remote control PC-board set*	BRP067A42	BRP900B42
Wiring adaptor for timer clock / remote controller (normal open pulse contact / normal open contact)		KRP413BB15 (Need BRP067A42) (Need BRP900B42)
Interface adaptor for CII-NET		KRP9280B25 (Need BRP067A42) (Need BRP900B42)
Central remote controller		DCS302CA61 (Need KRP9288B25)
Unified ON/OFF controller		DCS301BA61 (Need KRP9288B25)
Schedule timer		DST301BA61 (Need KRP9288B25)
Wireless LAN connecting adaptor*		BRP072C42 (Need BRP067A42) (Need BRP900B42)
Titanium apatite deodorizing filter (without frame)		KAF970A46
Dust collection Filter (PM 2.5 Filter) without frame*		BAFP046A41
Remote controller loss prevention with the chain		KCF910A4

*Standard accessory.
